

VAISHNAVI BALASUBRAMANIYAN

Lead Software Test Engineer | QA Automation Lead

bvaishnavibalasubramanian@gmail.com | +91-9791912577 | Chennai, India

PROFESSIONAL SUMMARY

Lead Software Test Engineer with 8.9 years of experience across SaaS, payment gateways, customer services, banking and payments platforms. Led QA/SDET delivery for Freshworks enterprise SaaS workflows, with strong exposure to automation strategy, technical reviews, CI/CD regression readiness, defect triage, stakeholder updates and release sign-off. Hands-on in API/UI automation, backend data validation and AI-assisted test development, delivering outcomes such as 50% faster regression execution and 20%+ productivity improvement using Cursor-based automation coding practices.

PROFESSIONAL EXPERIENCE

- Freshworks, Lead Software Test Engineer / QA Automation Lead**08/2024 – Present
 - Lead QA/SDET ownership for Freshworks enterprise SaaS workflows, covering automation planning, technical reviews, CI/CD regression health, risk updates and release readiness.
 - Improved regression execution speed by 50% through automation optimization, suite stabilization and reusable framework improvements.
 - Leveraged Cursor and AI-assisted vibe coding to generate, refactor and optimize automation tests, improving delivery productivity by 20%+.
 - Built Ruby/Selenium automation and backend validation coverage for high-volume workflows, improving data integrity and release confidence.
 - Guided peer reviews, debugging support and reusable automation utilities; tools include Ruby on Rails, AWS, Docker, Kubernetes, Java, Selenium, Jenkins and GitHub Actions.
- Barclays, Senior Quality Analyst | Gateways Billing Service and Admin Portal**07/2021 – 07/2024
 - Owned test strategy, test plan, automation roadmap, regression execution and sign-off for Gateways Billing Service and Admin Portal enhancements.
 - Built a 3-layer custom Karate framework covering API testing, Kafka validation, database validation and report-verification utilities.
 - Validated Kafka billing flows where Oracle transaction data was consumed through GoldenGate and aggregated into daily/monthly reports.
 - Defined JMeter SLAs and integrated Selenium/API regression suites with Jenkins/GitHub pipelines to improve repeatable release readiness.
- Accenture, Senior Quality Analyst | Banking: PNC Bank, Zurich Insurance**07/2017 – 07/2021
 - Delivered client-facing QA for online banking APIs, real-time payments, card/account services and customer-service UI journeys across SOAP and REST layers.
 - Automated Karate/Cucumber and Selenium suites for GET, POST, PUT and DELETE flows, authentication checks, complex tables and multi-browser validations.
 - Worked with Scrum teams, product owners, technical BAs and clients for environment readiness, defect triage, impact communication and on-time releases.

EDUCATION

- B.Tech - Computer Science and Engineering,**2013 – 2017
Kumaraguru College of Technology, Tamil Nadu

CORE SKILLS

Domain Expertise	Automation	API / Services	Programming / Database
- SaaS - Payment Gateways - Customer Services	- Karate Framework - Cucumber - Selenium WebDriver - BDD - Page Object Model - data-driven testing	- REST - SOAP - Postman - webhooks - E2E service flows - authentication validations	- Core Java - Ruby on Rails exposure - Gherkin - MySQL - Oracle - SQL
AI & Productivity	CI/CD & Platforms		
- Cursor - AI-assisted vibe coding - test generation - refactoring - code review and automation optimization	- Jenkins - GitHub - Bitbucket - AWS - Docker - Kubernetes - Kafka - GoldenGate - Maven - JUnit		

CERTIFICATION

- Microsoft AZ-900 Cloud Certification

LEADERSHIP AND IMPACT HIGHLIGHTS

- Impact Highlights**
- 50% faster regression execution through automation optimization in the latest Freshworks SaaS role.
 - 20%+ productivity improvement using Cursor and AI-assisted vibe coding for automation test generation, refactoring and review.
 - 3-layer validation exposure across API, Kafka and database/report workflows.
 - Lead ownership across test strategy, automation roadmap, technical reviews, CI/CD readiness, defect triage and release sign-off.
